**UNISTRUT**  
SERVICE COMPANY

YOUR ENGINEERING AND MATERIALS AUTHORITY™

# THE UNISTRUT™ SYSTEM

Since 1944, Unistrut Service Company (USC) has offered a wide range of genuine Unistrut materials and hardware, as well as design engineering and value added services to include but not limited to assembly, installation, and the cutting, kitting, and bundling of genuine Unistrut materials and hardware in various engineered applications and projects. With expertly appointed engineers, product specialists, and the necessary materials and equipment, Unistrut Service Company upholds the resources you need to take your project from the drawing board to successful completion. And with our competitive approach, timely delivery, and expert knowledge in locations across the United States including Cleveland Ohio, Lakeland Florida, Houston Texas, and Charlotte North Carolina, Unistrut Service Company is your engineering and materials authority.
